

Key Changes

This guide indicates where the NBOCAP fields have been moved to in the new design.

Patient characteristic fields can be found in both the referral and diagnosis events

Referral Details

Referral to Treatment Period Start Date	18/05/2015	CWT007: Decision to Refer Date (Cancer or Breast Symptoms)	18/05/2015
Referral Request Received Date	18/05/2015	CWT008: Cancer Referral to Treatment Period Start Date	18/05/2015
Age at Referral	073	Decision to Refer to Receipt of Referral	000 days
Type of Referral		Referral made by	
Referring GP Details		Referral GP Fax Number	
WHO status at Referral			
Current Hospital Site	RVVKC - KENT & CANTERBURY HOSPITAL		
CR1600: Source of Referral for Out-Patients	03 - Referral from a GP		
NOGCA: Referral Source		NBOCAP - Source of Referral	
CWT003: Patient Pathway Identifier	1234567890000269754		
CWT004: Organisation Identifier (Patient Pathway Identifier Issuer)			
CWT006: Priority Type Code	2 - Urgent (including screening)		
CWT009: Two Week Wait Cancer or Symptomatic Breast Referral Type	11 - Suspected urological cancers (excluding testicular)		

Source of referral is in the Referral Details panel in the referral event.

Diagnosis date for Cancer Registration can be found in the diagnosis details panel in the Diagnosis Details Event.

Diagnosis Details

Cancer Diagnosis

Diagnosis Type	01 - New Primary Diagn	Record ID	000290706
CR2030: Date of Diagnosis (Clinically Agreed)	10/11/2015	Current Age	76
NBOCAP: Diagnosis Date (Cancer Registration)		Age at Diagnosis	74 Years
CR6500: Date of Non-Primary Diagnosis (Clinically Agreed)			
CR6510: Non-Primary Cancer Pathway Type			Pt is under 25 yrs Treat as CTYA
CR6520: Cancer Recurrence or Metastatic Disease Type			
Date Patient Informed of Diagnosis		GP Informed within 24 hours?	
Date Faster Diagnosis Pathway Stopped		Relative/carer informed?	
CR2050: Clinical Nurse Specialist Indication Code	Y3 - Yes, nurse not present when patient given diagnosis but saw patient c		
CR6840: Sexual Orientation (At Diagnosis)			
CR6230: Site Code (of Diagnosis)			

Primary Diagnosis

CR0370: Primary Diagnosis (ICD)	C18.1 - Appendix
CT6060: Primary Diagnosis Subsidiary Comment	
Category	3 - Lower Gastrointestinal
CR0380: Tumour Laterality	R - Right

Initial Care Plan Summary

Initial Care Plan Summary

Care Plan Agreed Date - 1st Care Plan	
Care Plan Number - 1st Care Plan	
CR0460: Cancer Care Plan Intent	C - Curative
CR0470: Planned Cancer Treatment Type	01 - Surgery
CR0490: No Cancer Treatment Reason	
CR0260: Co-morbidity Index for Adults	Mild decompensation - 1
CR0510: Performance Status (Adult)	4 - Completely disabled. Cannot carry on any self care. Totally c -
CR0430: MDT Discussion Date (Cancer)	25/07/2017
Reporting MDT Discussion Indicator	A
CR6470: MDT Lead Clinician	
CR6470: GMC Code	
Patient Trial Status (Cancer)	
Clinical Trial Treatment Type	

The above fields are populated automatically from the first dated Cancer Care Plan Event.

Tumour Specific Details

NBOCAP - CPEX Anaerobic Threshold	
NBOCAP - Height of Tumour Above Anal Verge	cm
CO5400: Synchronous Sites	1 - Caecum

CPEX Anaerobic Threshold and Height of Tumour Above Anal Verge are now found in the Tumour Specific section in the Initial Care Plan Summary screen.

Surgical related fields can be found on the Treatment Event of the Procedure and Intra Operative Details panel.

Procedure and Intra Operative Details (B)

Procedure Details

Procedure Description	
CR6010: ASA Score	
CR0680: Cancer Treatment Intent Surgery	
Surgical Approach	Specimen Imaging Available
Surgical Access Route 1	Surgical Access Route 2
Procedure Laterality	CR6310: Surgical Access
Intra-Op Prophylaxis	Position
Local Anaesthetic	Feeding Adjunct
Local Anaesthetic Given	
CT7010: CCLG Guideline	CT7000: Treated acc. to CCLG guidelines
CT7370: Conditioning Regimen	CT7190: Relapse Method of Detection
CT6130: Stem Cell Infusion Source	CT6140: Stem Cell Infus
NBOCAP: Robotic Surgery	
NBOCAP: Cancer Treatment Curability	
NBOCAP: Surgical Access	
NBOCAP: Immediate Post-Operative Care	

These fields include:
 Robotic Surgery
 Cancer Treatment Curability
 Surgical access
 Immediate Post-Operative Care

Chemotherapy: Treatment Details (B)

Chemotherapy Details

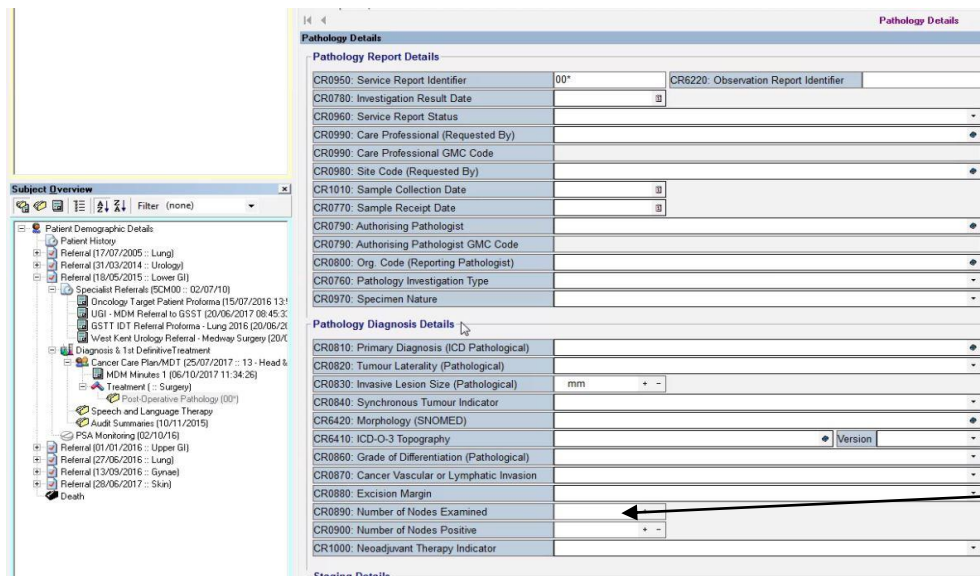

Start of Treatment	End of Treatment
Consultant Initiating Programme	
Drug Therapy Type	
Drug Regimen Acronym	
HANA: Chemo Drugs Prescribed	
Additional/supporting drugs	
Treatment Intent	
Cycles Prescribed	+ -
Cycles Received	+ -

Tumour Specific Details

NBOCAP: Oncology Type	
-----------------------	--

Oncology Type can now be located in the Chemotherapy Details screen under the Tumour Specific Details Heading.

Pathology items can now be located in the Post - Post Operative Pathology event (left side).

All other Pathology fields can be found on the Colorectal Pathology Details panel under the NBOCAP Audit Fields panel.
