CANCER SUPPORT**

- Play a vital role in influencing and developing patient pathways.
- Use your experience to help us understand things from the patient/carer perspective.
- Make a difference. We are unable to make changes if we do not know what changes need to be made.

Do you need to have previous experience?

- No

Will you be the “right type” of person?

- There is no wrong or right type of person
- The wider the range of patient voices the better
- We value the views of the whole community, from all age ranges and backgrounds

Do you have to be or have been a patient?

- No, we value everyone’s views, whether you are a patient, a family member, friend or carer

We could use your help...

We need to hear from you whatever your experiences, good and bad, or ideas and suggestions. We believe that patients and their families are the experts and value your thoughts.

We are always looking for people with experience of cancer
 - whether as a patient, carer or family member
 - to get involved with us.
